Professional Pest Control Equipment

# CITIZEN KOMPACT 90 SILENZIO

## GREAT POWER, GREAT PERFORMANCE!

### Powerful engine

4-Cylinder, 84 HP Turbo watercooled, or 90 HP aircooled. Powerful, quiet, silent running.

### Integrated Rinsing Circuit Tank

The Integrated Rinsing Circuit Tank allows the automatic washing-rinsing of mixture tank, pump and spray circuit after work. The Wash-Rinsing function preserves all parts of the machine from any chemical aggression. The function is done in one minute time. Large spray tank contents meter. Precise, easy watch.

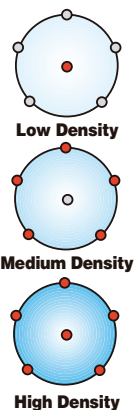

### Easy load-unload

Standard equipped with fork-lift guides and tackle.

### Selective activation of nozzle banks (Tifone patent)

The selective spray activation of nozzle banks allows 3 different Density spraymist : **Low Density, Medium Density, High Density**. For targeted calibrated pest control spraying of:

- non uniform vegetation
- trees and edges of different height
- spot spray to control heavy pest attacks

The selective spray activated from the remote control box.

# CITIZEN KOMPACT 90 SILENZIO

## SPECIAL FUNCTIONS AND ACCESSORIES

**Spray  
range up  
to 50 m**

### Hand- and Electro-operated Hose reels + Spraygun

With oil-resistant high pressure (rubber) hose, 50 and 100 metres. Hand- or El. 12Volt DC operated.

### Micro-Dosing Pump

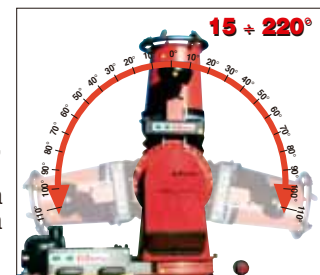

New version, compact, integrated unit. Technical advantages:

- The sprayer works with just clear water in the tank so: tank, pump, pump diaphragms, hoses are non touched by chemicals. No need to rinse the sprayer circuit after use.
- The Micro-Dosing Pump is providing the pesticide dosing for the specific spraying and will inject it in the final section of the spray circuit.
- The system allows to make different specific sprayings in limited areas or plots.
- Direct connection for quick washing of the Dosing-Pump after use.

### Automatic, Angle Programmable, Vertical, Continuous Brass-Spraying.

The automatic continuous Vertical brass-spraying is the ideal solution for boulevards, trees alignments, hedges, barriers, banks, border walls, high walls of any type etc. where the width of the area to be sprayed is requiring a continuous up-and-down cannon moving.

The Automatic, Angle Programmable, Vertical Continuous Brass-Spraying is the ideal solution with the following advantages :

- total automation of the up-and-down cannon moving
- eliminates the need of the cannon operator
- grants an 100% productivity
- and a precise constant spray quality.

It's programmable for the desired spray angle right and left from 15° to 220°.

### Electrostatic Charge E±S4

The TIFONE Electrostatic Charge E±S4 is transmitting an intense electrostatic positive (+) charge to the mist droplets. This charge (+) will be attracted by any part connected to the negative ground (-) as trees, hedges or any vegetable growings, buildings etc.

### Ergonomic Control Box

The new ergonomic Tifone control box: all functions are easy finger-tip operated.
