

The ideal, lightest and most compact Sprayer for the most difficult terrains.

The ECO-MINI line of Tifone tractor mounted sprayers offers special features including a very modern and compact, rounded profile and shock proof frame. Its weight is minimal and its line guarantees a very limited overhang from the tractor. Available with 24" and 28" (60 and 70 cm) sprayers with absorbed power with justable to minimum and tractors starting from 15 HP thanks to the variable Axial Propeller. Available with 200 and 300 litre capacities.

Strengths:

- ANTI-DRIFT + ANTI-POLLUTION technology.
- Axial Propeller Withjustable in 6 sec.
- Symmetric Distribution, Right-Left.
- Wide Top Deflectors.
- Anti-drift Nozzles.
- Tangential Nozzles.
- Electrostatic Charge, High Density (E±S+)*.
- Mechanical level indicator clearly visible by the operator.
- Autofilter: fluxed continuously. Always clean.
- Optimal agitation of pest control mixture without sedimentation.
- Turbofans with instantly withjustable air volume Axial Propeller.
- Turbofan AP-28" (diam. 70 cm) = 36,000 mc/h.
- For spraying Vineyards and Orchards with up to 3.5 m spacing and height up to 4 m.

* Optional.
